Winnipeg-Manitoba

Winnipeg, the Gateway to the Golden West, well deserves the name of the "Marvellous Metropolis," for its growth has been wonderful. With a population of 1000 about thirty-five years ago, it has risen to be the third City in Canada, with over 175,000 inhabitants.

uniches Maniteta

Its Streets and Boulevards are unusually wide and well laid out, while it contains many substantial and handsome Buildings. It is the principal manufacturing and wholesale centre in the West, while it is the largest Grain Market in the British Empire, the huge wheat harvests from the Western Provinces flowing through the City each year on their way to the markets of the world. Twenty-two Railway tracks radiate from the City, while the C.P.R. yards, with its 120 miles of sidings, are the largest in the world, controlled by a single corporation.

The future of Winnipeg is looked upon with great hopes, which cannot but be realized.
